Applicant(s)

SAMSOONDAR, JAMES

Examiner

Ardin Marschel

Art Unit

1631

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 12 November 2004 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.

PERIOD FOR REPLY [check either a) or b)]

- a) ☐ The period for reply expires _____ months from the mailing date of the final rejection.
- b) ☒ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. ☐ A Notice of Appeal was filed on _____. Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.
2. ☒ The proposed amendment(s) will not be entered because:
- (a) ☒ they raise new issues that would require further consideration and/or search (see NOTE below);
 - (b) ☐ they raise the issue of new matter (see Note below);
 - (c) ☒ they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
 - (d) ☐ they present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: See further explanation as enclosed.

3. ☐ Applicant's reply has overcome the following rejection(s): _____.
4. ☐ Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
5. ☒ The a) ☐ affidavit, b) ☐ exhibit, or c) ☒ request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Continuation Sheet.
6. ☐ The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.
7. ☒ For purposes of Appeal, the proposed amendment(s) a) ☒ will not be entered or b) ☐ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.

The status of the claim(s) is (or will be) as follows:

Claim(s) allowed: _____.

Claim(s) objected to: _____.

Claim(s) rejected: 12-18, 20, 22, & 29-38.

Claim(s) withdrawn from consideration: _____.

8. ☐ The drawing correction filed on _____ is a) ☐ approved or b) ☐ disapproved by the Examiner.
9. ☐ Note the attached Information Disclosure Statement(s) (PTO-1449) Paper No(s). _____.
10. ☐ Other: _____.

Continuation of 5. does NOT place the application in condition for allowance because: of reasons of record due to the non-entry of the amendment proposal and as further discussed as enclosed.

DETAILED ACTION

Further explanation of item # 2a) on the enclosed Advisory action:

Applicant had a choice of either amending the instant independent claims via the removal of "followed by" as proposed in the amendment proposal, filed 11/12/04, or, alternatively, adding the limitations of the specification on pages 10 and 11 and Figure 3 as instantly disclosed in connection with ordering of steps corresponding to the phrase "followed by". Applicant's choice, if entered, would have required further consideration and/or search, particularly regarding the below discussed Juranas prior art reference thus supporting this denial of entry of the amendment.

Further explanation of item # 5 on the enclosed Advisory action:

The NEW MATTER rejection of all of the instantly pending claims is maintained and reiterated from the previous office action, mailed 11/2/04, due to the non-entry of the amendment as noted above.

Applicant argues that the instant application has priority earlier than the disclosure of Juranus. In response, this argument is non-persuasive because it is an allegation without factual support. No disclosure in priority documents has been pointed to, or found, that supports a priority date claim for the instant claims which predates Juranas.

Regarding the further argument that Juranas fails to describe steps iii) and (iv) of the instant independent claims, this argument is non-persuasive due to being inconsistent with even applicant's own summary of Juranas. Applicant admits in REMARKS, filed 11/12/02, that reagent is aspirated via air pressure into a nozzle which reasonably is a dispensing tip as instantly claimed is inserted into a mounted pipette tip with reagent being suctioned further into the mounted pipette tip which is a disclosure of said parts iii) and iv).
